Series

Our Earth is diversity,

Di-earth-sity

Huqstuff is a childrens' book company of many series we have created. However what makes Huqstuff unique? For one thing Huqstuff has so much diversity in religion, culture, species, and much more. You name it, we probably have it!

It's not just the rainbow of characters we have but it's also how fleshed out and developed our characters are as well! You can NEVER describe a character in one or two words; almost like real people! Even the characters who are "evil" have a story to tell.
