Crush Wolfinski

was raised in Gray stones, in New York. He has, a huge and I mean HUGE family. He is an orange dhole and enjoys writing children's books. His hobbies include writing of course, playing golf, animating, drawing, cooking, and photographing. He is not married yet and has no kids but is still searching for a mate that will love him for him and not just his money. Hopefully this will happen when he overcomes his shyness.

Muquesko Toksis

was born in the Wisconsin Dells, in America. He is a blue flying rattlesnake. He lived there with his wife Ally (a crocodile) and his son Crocky (also a crocodile.) One tragic day struck when somebody kidnapped his wife and child. Muquesko then moved to Huqworld, located in Illinois, thank to Chubskey and Master Imono's help they found Muquesko's son. He's still in search for his wife. It was Chubskey that got him into writing and drawing. Now Muquesko writes childrens books with Crush Canidae.

Huqstuff is a childrens' book company of many series we have created. However what makes Huqstuff unique? For one thing Huqstuff has so much diversity in religion, culture, species, and much more. You name it, we probably have it!

It's not just the rainbow of characters we have but it's also how fleshed out and developed our characters are as well! You can NEVER describe a character in one or two words; almost like real people! Even the characters who are "evil" have a story to tell.

You human readers might be use to the 3rd dimension, but there are actually thousands upon thousands, all in which are in Mr. Jenkins' belly! Muquesko an adult rattlesnake just had his wife and son kidnapped! His hope is that he can do whatever he can to find them and maybe make a few friends along the way!

"A Way to Understand" is about teaching children about differences and just because someone is different doesn't make them any less capable then another person.

"A Way to Understand" does this with the two main characters Jacob who is Deaf and Kayla who is blind. They have talents, they have interests, they enjoy life just as anyone else would and being different doesn't change that.
